## Modernizing Data Aggregation

Stephanie Small

June 2026

# A new system to meet evolving needs

- ONIX 2.1 sunset
- Schema and codelist changes
- Market legislation and regulations

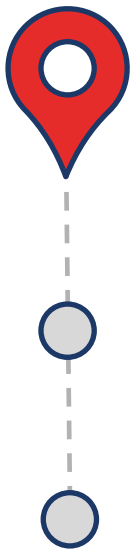

# A made-in-Canada solution for data aggregation

# A phased approach

## Phase 1

Architecture, end-to-end processing, internal tools

## Phase 2

External user support, assets, integrations

## Phase 3

Refinements, nice-to-have features

## The benefits of BiblioShare 2

- Improved ONIX 3 support
- Faster end-to-end processing
- Administrative and troubleshooting tools
- Data visibility

**A smooth transition for existing users  
is a top priority**

# Webform

## for ONIX creation

Shuvanjan Karmaker

June 2026

## What is Webform?

Webform is an easy-to-use platform for creating, managing, and sharing quality book metadata.

- Adheres to EDItEUR and BookNet Canada standards
- Helps publishers produce accurate ONIX
- Simplifies metadata workflows
- Supports better discoverability

## Who is Webform for?

- Small presses
- Publishers
- Museums
- Universities
- Independent authors
- Anyone who needs to share clear, reliable book metadata

## Our latest updates include

- User friendly interface
  - Advanced form that allows clients to add..
    - Multiple BISAC & Thema codes
    - Multiple Product Form Details
    - Multiple Contributors
    - Multiple Prices for different markets
    - Detailed marketing information
    - Add various media assets
    - EPUB details
    - Transmit ONIX and assets to trading partners via FTP
- ..and much more to allow users take advantage of full-scope of ONIX

# Migration to ONIX 3
